

## National Finance Center Customer Notification

### Email Service Migration

On September 10, 2018, the National Finance Center (NFC) migrated its email services to the new Microsoft Government Community Cloud (GCC). Due to this migration, access to some shared mailboxes was delayed which may delay processing of some Agency email requests to customer mailboxes (e.g., TMGT, PPSUAT, etc.). As of September 13, 2018, NFC has resolved the issue and is currently working queued Agency email requests. We apologize for the inconvenience and delay. If you have further questions, please don't hesitate to call your designated Customer Service Liaison.
