Maintain Property Records Form

- **Changes**

- Fixed the Using Organization field List of Values (LOV).

Owned Property Form

- **Changes**
 - Fixed the Using Organization field List of Values (LOV).

Status History Form

- **Changes**
 - Users are prevented from entering a Status History record where Status = DISPOSED if the preceding Status History record Status is not EXISTING%.
 - When a user selects DISPOSED Status and the previous Status value is not EX%, the following pop-up message is displayed: “Asset has never existed according to the previous Status record. DISPOSED can only be used for assets that have been part of USDA’s actual inventory. If the record is erroneous, please contact your Agency POC for guidance.”
 - Removed all imbedded DISPOSED Status records for all but Forest Service asset records. A one-time report will be provided to all agencies with asset records having imbedded DISPOSED Status records. (“Imbedded” means one or more DISPOSED Status records with an Effective Date earlier than the MAX Effective Date Status record.)
 - **Regarding: Buildings – Status History; Land Unit – Status History; Other Features – Status History:**
Prevent Status values of %EXCESS% from being visible on the Status field LOV when an asset has a Property Type of USDA LEASED.

Prevent Status values of %GSA% from being visible on the Status field LOV when an asset has a Property Type value of STATE OWNED or FOREIGN OWNED.

Disposition Value is auto-populated with - .00 and data entry is prevented when the Disposal Method is Lease End (when the Property Type is USDA Leased or GSA Assigned).

Removed the error message/logic, “Disposition Value must be greater than 0 for disposal method LEASE END.”

System:

- **Changes**
 - Completed the data cleanup of the current CPAIS data to ensure the Country Code portion of the assets GLC reflect the New Country Codes provided on the GSA Website (<http://www.gsa.gov/portal/content/101553>) titled FRPP GLC List of Foreign Countries or the attached spreadsheet OPPM provided.
