

FMMI Out of Cycle Update – December 1 - 31, 2021

Defects	Description	Agency	Production Date
DFCT0010735	Correct the issue where UFAN activity is deriving two BL entries instead of one.	FSIS	12/02/2021

Enhancements	Description	Agency	Production Date
ENHC0010506	Create a new interface between AEROS and FMMI to process collections activity. The interface in FMMI will receive a file from AEROS and will perform collections against open AR documents and/or the creation of new S2 documents in FMMI as indicated on each detail record. The results of the processing with detailed success/error messages will be exported to AEROS in a flat file format.	FNS	12/02/2021
