FMMI – Funds Management FUND Master Data Template

Fund: A 10-digit alphanumeric naming structure that indicates an agency identifier, a high-level business area, and an agency-defined naming structure. A Fund is a master data element within FMMI that represents a set of specific accounting elements for recognition of obligation (budget) authority, and it is referenced whenever spending occurs.

FM Area: An organizational unit which plans, controls, and monitors funds and commitment budgets.

Name: The actual name of the master data element with more detail than the initial screen field.

Description: A more detailed description of the master data element.

Valid From: The date the master data element will be valid from. The master data element is valid up to the "Valid From" date.

Valid To: The date the master data element will no longer be considered valid. The master data element is valid up to the "Valid To" date.

Fund Type: A category of funds that determines the applicable external accounting and reporting requirements, e.g., Working Capital Funds.

Authorization Group: Access for a user to perform specific transactions and to display information. Authorizations are assigned to user log-on IDs.

Budget Period: Timeframe of available budget authority, e.g., 1010 means from valid from 10/1/2009 to 9/30/2010, 10XX means valid from 10/1/2009 to 12/31/9999.

Budget Period Name: Description of a budget period.

BP Funds Application: The name for the Treasury Account symbol in FMMI. Starts with department regular and ends with the main account number.

Apportionment Category: A distribution of budgetary resources made by the Office of Management and Budget (OMB) by calendar quarters. It indicates whether amounts are category A or B apportionments, or not subject to apportionment.

BEA Category: The Budget Enforcement Act (BEA) specifies that spending fall into the category Discretionary, Emergency, or Mandatory.

Reimburse/Direct: Specifies whether fund is allowed for offsetting collections in return for goods and services provided by the Treasury Appropriation.

Authority Type: Specifies the type of budget authority, e.g., Appropriation/Contract Authority/Appropriation.
