

# STAR 5.0

System for Time and Attendance Reporting (STAR) 5.0 will be implemented on August 17, 2006. STAR 5.0 contains multiple new features.

The new features of STAR 5.0 include:

- Employee daily entry via the Time Manager option in the Employee Personal Page (EPP) (optional - must be activated by contact point)
- Timekeeper entry for either daily (optional - must be activated by contact point) or biweekly time and attendance (T&A) processing
- Ability to establish default schedules for use as a starting point each pay period
- Agency maintenance of accounting and transaction code tables
- Ability to establish project accounting within the agency accounting table
- FOCUS Reporting System (FOCUS) capability against STAR data
