**Title of Project:** CFPB Additional Vendors for Non Fed Benefits

**Brief Description:** CFPB is a new agency to be established on the NFC and Treasury's HR Connect System effective PP03/2011. CFPB will not be permitted to ride the OCC contract for their non-federal benefits (short term disability, long term disability, 24 hour accident insurance, non-fed life insurance, etc.) Procurement solicitations have been issued. The potential exists that the vendors may be different or the rates different than those existing in NFC and HRConnect. If so, new plan codes will need to be established. This may also involve new requirements for vendor files than those currently used by OCC.
